PENNSTATE HERSHEY
Heart and Vascular Institute

With the creation of the Penn State Hershey Heart & Vascular Institute, invasive cardiac and vascular catheter-based services were combined to form the **Interventional Program**. By bringing together interventional radiologists and interventional cardiologists, patients receive state-of-the-art care from physicians and staff with advance training and expertise in the field of cardiac and vascular medicine. The cardiovascular interventional radiology program features recognized leaders including Dr. Frank Lynch, Dr. Leslie Scorza, Dr. Harjit Singh, and Dr. Peter Waybill. The invasive cardiology program features recognized leaders including Dr. Charles Chambers, Dr. Steven Ettinger, Dr. Ian Gilchrist, and Dr. Mark Kozak..

Together, the Penn State Hershey Heart & Vascular Institute **Interventional Program** features procedures such as diagnostic cardiac catheterizations, coronary atherectomy, coronary balloon angioplasty, laser angioplasty, intracoronary stenting, intravascular ultrasound, valvuloplasty, percutaneous oncological treatments, thromboembolism prophylaxis, women's health interventions, lower extremity venous disease, atherosclerotic occlusive disease and feature both arterial and venous vascular disease diagnosis and treatment services (including carotid artery interventions).

The Penn State Hershey Heart & Vascular Institute **Interventional Program** recognizes that cardiac and vascular diseases are the leading cause of disability and death in patients in the United States. The physicians of the Penn State Heart & Vascular Institute share one common goal that together, we can and we will make a difference in the health and welfare of our patients.

If you have any questions or concerns about your current cardiac or vascular condition, or the condition of a loved-one, please do not hesitate to contact my colleagues or me either via email or through the Penn State Hershey Heart and Vascular Institute *Access Center*.

Sincerely,

Steven Ettinger, MD
Director, Interventional Program
The Penn State Heart & Vascular Institute
