The Pennsylvania State University is committed to the policy that all persons shall have equal access to programs, facilities, admission, and employment without regard to personal characteristics not related to ability, performance, or qualifications as determined by University policy or by state or federal authorities. It is the policy of the University to maintain an academic and work environment free of discrimination, including harassment. The Pennsylvania State University prohibits discrimination and harassment against any person because of age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status. Discrimination or harassment against faculty, staff, or students will not be tolerated at The Pennsylvania State University. Direct all inquiries regarding the nondiscrimination policy to the Affirmative Action Director, The Pennsylvania State University, 328 Boucke Building, University Park, PA 16802-5901; Tel 814-865-4700/V, 814-863-1150/TTY. PENNSTATE HERSHEY
Bone and Joint Institute

presents the

ELIZABETHTOWN LECTURESHIP IN PEDIATRIC ORTHOPAEDICS

Thursday, October 27, 2011

Penn State Milton S. Hershey Medical Center
Robert B. Greer III, MD, Orthopaedic Library
Biomedical Research Building, Room C3860

GUEST SPEAKER

Peter D. Pizzutillo, MD
Professor and Division Chief of Orthopaedics
St. Christopher's Hospital for Children
Philadelphia, Pennsylvania

A continuing education service of
Penn State College of Medicine and
Penn State Hershey Bone and Joint Institute

Objectives

At the completion of this conference, the participant should be able to:

- Distinguish developmental radiographic features of the immature cervical spine from pathological changes.
- Diagnose common and rare injuries of the cervical spine in children less than two years of age
- Determine which patients require consultation for more detailed evaluation and treatment recommendations
- Explain the natural history of common torsional deformitites of the lower extremity
- Diagnose pathologic conditions that may be due to altered development, trauma, infection, or congenital anomaly
- Recommend effective interventions to promote normal function in growing children and adolescents

Credit

Penn State College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Penn State College of Medicine designates this educational activity for a maximum of 3.5 *AMA PRA Category 1 Credits(s)™*. Physicians should only claim credit commensurate with their extent of their participation in the activity.

It is our policy to ensure balance, independence, objectivity, and scientific rigor in all of our sponsored educational programs. Faculty and course directors have disclosed relevant financial relationships with commercial companies, and Penn State has a process in place to resolve any conflict of interest. Complete faculty disclosure will be provided to program participants at the beginning of the activity.
