

PENNSSTATE

Milton S. Hershey Medical Center
College of Medicine

is a tobacco-free organization.

Improved health and the prevention of disease are an essential part of our mission. Because the evidence is clear that tobacco use contributes to poor health, increased risk of disease and chronic illness, eliminating the use of tobacco products on our grounds is a responsible and reasonable approach and one we believe our employees and community support.

As of January 1, 2007 tobacco use is not permitted on the grounds of our Medical Center and College of Medicine facilities. This policy applies not only to our employees, but to all patients and visitors as well.

The Medical Center offers a number of programs to help individuals to quit smoking. For more information call our Careline at 1-800-243-1455.

**Thank you
for not smoking.**

**TOBACCO-FREE
TOGETHER**
