

Chemotherapy Administration Plan

The chemotherapy administration plan is intended as a guide for nursing staff. It is a logical sequence of the plan of treatment for the patient based on the identified regimen. It does not replace the chemotherapy order. It is not part of the medical record.

	Day 1	Day 2	Day 3	Day 4	Day 5
Date					
Time					
Labs	Labs per Order	Labs per Order	Labs per Order	Labs per Order	Labs per Order
Pre Medication	Ondansetron 30 min prior to chemo	Ondansetron 30 min prior to chemo			
Pre Hydration					
Chemotherapy	Idarubicin or Daunorubicin given as an IV	Idarubicin or Daunorubicin given as an IV			
	Ara-C given as a continuous IV infusion days 1-7 (not to be interrupted!) Administer each dose over 22 hours	Ara-C given as a continuous IV infusion days 1-7 (not to be interrupted!) Administer each dose over 22 hours	Ara-C given as a continuous IV infusion days 1-7 (not to be interrupted!) Administer each dose over 22 hours	Ara-C given as a continuous IV infusion days 1-7 (not to be interrupted!)
