## Academic credits offered by the program:

There are a total of 55 credits offered by the program during the pre-clinical training and 46 credits offered during the clinical phase of the PA program. The first two semesters in the program contain 18 credits each while the final capstone pre-clinical semester offers 19 credits. During the clinical training, each rotation lasts 5 weeks and offers five credits. The summative experience offers one credit of experience. All courses in the curriculum are graded on a letter grade basis with the exception of the Advanced Cardiac Life Support Course which is offered as a pass/fail grading scale.
