

AGENCY SUMMARY INFORMATION

Agency	Student Name	
Once a health care professional, group or agency has been selected, the student will begin to collect information concerning:		
1.	The services offered	
2.	The patient population served	
3.	The cost of services to the patient	
4.	The linkage to the primary care provider a) The referral process	
	b) Cooperation, if any, between the professional, agency or group	physician and the health care
5.	The benefits offered to the specific patient identified	
At leas	st one person associated with the agency, grou t.	ıp, or profession should be interviewed by the

When the information has been collected, the student should review it with the preceptor and discuss ways in which the preceptor has used this community resource for his or her patients or, if the resource

is not being used, why the preceptor chooses not to do so.
