3025 Market Street Camp Hill, PA 17011-1802

MEALS: N/A HOUSING: N/A

COMMENTS: Personal vehicle is **REQUIRED**

PSHMG Camp Hill is an outpatient family practice office located in the Camp Hill area. The practice consists of nine family physicians, one nurse practitioner and one physician assistant. Within the same building specialists from Hershey Medical Center also see their patients. Patients have access to onsite radiology, laboratory and physical therapy services. The patient population provides a broad range of ages including pediatric to geriatric patients. Students will work with all of the providers during the rotation and gain experience with problems common in a family practice office as well as various procedures (i.e. joint injections, basic skin surgeries, and cryosurgery). In addition, students will gain exposure to sports medicine cases via their work with our provider who is fellowship trained in sports medicine.
