COMMENTS: Personal vehicle is necessary. No required on call. Call optional on the Inpatient Service or OB.

The clerkship experience with Lancaster General Hospital will provide the medical student with a diverse exposure to outpatient medicine. The medical students will spend part of their time seeing patients in the Downtown Health Pavilion which is located within the confines of Lancaster General Hospital and the * WLAHHC which is located in Quarryville. The medical student will be given the opportunity to see and evaluate patients first and then discuss and see these patients with either an upper year family practice resident or with the family practice attending. Medical students will be expected to see 4-6 patients during a half-day session. Medical students will also have the opportunity to spend several half-days during the month with Hospice, Dermatology Clinic, Sports Medicine Clinic, Franklin & Marshall College Infirmary, and in academic conferences held here. Although call is not necessary, students have the option of taking call on the Inpatient Service or OB if they so desire. .

* Approximately 20-30 minutes south of Lancaster
