**COMMENTS:** Personal vehicle is REQUIRED (20 miles one way from Hershey Medical Center)

The Penn State Hershey Medical Group at Mount Joy is a multi-specialty group. The family practice department at this facility consists of two full-time family physicians, as well as a nurse practitioner. During the family medicine rotation, you will be exposed to a wide range of patients varying from infancy to geriatrics. An array of office procedures, including skin biopsies, cryosurgery, joint injections, gynecological procedures, and osteopathic manipulation are performed by our physicians. Your experience here will include the opportunity to work with both of our physician staff to experience different physician practice styles.
