The Penn State Hershey Medical Group, Palmyra is a six-physician (and 1 CRNP) group practice located on the corner of Orchard Lane and Park Drive in Palmyra. The office is open Monday through Friday from 7:00 a.m. until 5:00 p.m. Students will spend half-day sessions with each of the five physicians rotating throughout the month. A schedule will be provided when you arrive for the first session.

All ages are seen at PSHMG Palmyra from newborns to centenarians. The physicians each have varied practices and interests, including geriatrics, obstetrics, sports medicine, and transgender care. Minor surgical procedures are done at the site. Community practice exposure will include nursing home rounds one half-day with Dr. Messmer and a half-day with Good Samaritan Hospital Hospice. There is no night call or weekend duty.

You should wear your white coat, bring your own stethoscope and ID badge. Other diagnostic equipment is available at the site.

The site has a lunchroom with a refrigerator and microwave oven that you may use, and there are several restaurants in the area if you prefer.
