Purpose/Audience
The Pediatric End-of-Life Nursing Education Consortium (ELNEC) is a national initiative to improve end-of-life care (EOL). The ELNEC core curriculum has been developed to provide end-of-life education to health-care providers, which translates into excellent care for pediatric patients and their families.

Objectives
Upon completion of this program, participants should be able to:

- Describe the philosophy and principles of hospice and palliative care with a nursing model of care
- Identify the need for interdisciplinary team collaboration within a palliative care model
- Describe the role of the nurse in providing quality palliative care for children and families
- Recognize changes in society, health-care economics, and service delivery that necessitate improved professional preparation for palliative care
- Discuss the unique aspects of suffering for children and families facing a life-threatening illness or event

Access
Penn State encourages persons with disabilities to participate in its programs. If you anticipate needing any type of special accommodation or have questions about the physical access provided, please contact Continuing Education in advance of your participation.

Accommodations
Accommodations are the responsibility of the program participant. A list of Hershey area lodging is available upon request or online at pennstatehershey.org/web/guest/patientcare/patientvisitorinformation#lodging.
